DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 to 13, 23 to 26, 33 and 35, drawn to a giant magnetostrictive material consisting essentially of a rare earth element, a transition metal element and interstitially introduced nitrogen and a method of making such a material, classified in class 148, subclass 301.
 - II. Claims 14 to 22, 27 to 32, 34 and 36, drawn to a giant magnetostrictive material comprising stacked melt quenched alloy flakes element having a columnar structure consisting essentially of a rare earth element and a transitional metal and a method of making such a material, classified in class 335, subclass 215.

The inventions are distinct, each from the other because of the following reasons:

2. The Group I and Group II inventions are distinct in that they are capable of separate manufacture, use, or sale as claimed and are patentable (novel and unobvious) over each other (though they may each be unpatentable because of the prior art), MPEP 802.01.
3. Should applicant traverse on the ground that the inventions are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable

over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Mr. Richard L. Schwaab on March 21, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
